

Product

The RAPTOR-GAMING M1 with its resolution up to 1600 dpi enthralls every gamer through its precision. The ergonomically right-hand design combines perfectly a swinging form with maximum of comfort and optimum control.

There is an additional set of mouse sliders with anti-adhesive function delivered with the professional mice, which provide precise and fast mouse movements.

A resolution of 1600 dpi provides pixel-exact precision and enormously short response times. You get a set of additional mouse sliders for extreme smooth gliding control.

The RAPTOR GAMING M1 can be steered softly and precisely. The small weight supports fast reactions.

The Soft-Touch surface feels pleasantly and offers excellent grip.
